God Has All Things Under Control

“Israel, Palestine and the Middle East”

You must hear these end-time prophecies and current events, concerning the Palestinian issue and the Land of Israel.

“Israel, the Church and End-Time Prophecy”

Gain insight into God's plan for Israel and the Church, while learning about your Jewish roots and heritage. This is a significant prophetic teaching on God's plan for Israel, how it is being fulfilled today, and the implications for believers.

“Messiah and the Passover Seder” (Presentation)

This teaching demonstrates a beautiful picture of how the pieces of God's salvation plan fit together, and how the elements used in the Passover Seder point toward the Messiah. The presentation culminates in an explanation of how the Lord's Supper was a Passover celebration.

“Gentiles Commission to the Jews”

Yachad Ministries has a crucial end-time Message to share with both Jews and Gentiles... and the enemy wants to destroy it!

“It pleased them indeed, and they are their debtors. For if the Gentiles have been partakers of their (the Jewish peoples) spiritual things, their duty is also to minister to them in material things.”

Romans 15:27

If ever there was so many high hopes, and distinct possibilities for peace in the Middle East, it is now. It seems Israel, America and most of the world wants peace in the Middle East. Surprisingly, many of the Arab Nations appear to be agreeable to peace, as well. In fact, many nations of the world are surprised by this. Israel is no longer the "so-called" dastardly enemy of all the twenty-two Arab Countries. Israel and many of the Arab Nations share a common enemy. That enemy, Iran vows daily, to nuke Israel and America. The various Arab Countries know Iran wishes to destroy them, too. In fact, any nuclear attack in the Middle East would effect the entire Middle East. Millions of people could die, immediately, and afterwards, as well.

So, don't think it is strange that things are changing in the Middle East. This is not to say, that all the problems have mysteriously disappeared, as they have not. But, having a large common enemy (Iran), who intends on vaporizing the entire area has a way of joining people, in a common cause. That cause is plain out survival. It just makes sense to be a part of one of the strongest armies in the world. So, whether it is going on in the open, or in secret, just know it is happening. Many thanks to President Donald Trump, Prime Minister Benjamin Netanyahu, and the leaders of several Arab Nations, who do not want their kingdoms blown to smithereens.

President Donald Trump will go down in history, as being like King Cyrus. The Jewish People will always remember his stand for them in their yearning for peace. No other American President has been quite so determined to bless Israel and help bring peace to her. Other American leaders talked and promised they would do so. But, for whatever reason, they reneged on their promises to see to it, that Jerusalem becomes the Capital of Israel. In May, that will become official on Israel's Independence Day. As of now, it appears President Trump will be there for this very important event. One, he helped to bring into being. This is wonderful!

Prime Minister Benjamin Netanyahu and President Donald Trump both agree the greatest challenge in the Middle East to Israel, America and their Arab neighbors can be fulfilled in one word. That word is, Iran. Iran continues not to give up on her nuclear ambitions. If anything, she is working over time to achieve her dangerous, and deadly, emboldened plans. She is practicing aggression, everywhere, even on her own borders. Both President Donald Trump and Prime Minister Benjamin Netanyahu realize she must be stopped. The chants of "*death to Israel*" and "*death to America*" must come to an end!

In the middle of all this, God is on the move, mightily, blessing and protecting His People. Is He not an Awesome God?

"Behold, He that keepeth Israel shall neither slumber nor sleep." Psalm 121:4

Written by: Shoshannah Blalock

The Terrorists Organizations, Hamas and Fatah have still not removed their call for the genocide of the Jewish People. Their ideological commitment is to destroy the State of Israel through a long-term 'so-called' holy war (Jihad).

Israeli Updates

TRUMP TO NETANYAHU: "IF EUROPE WON'T FIX IRAN DEAL, USA WILL NIX AGREEMENT"

The Trump administration has vowed to withdraw from the Iran nuclear deal if European allies refuse to agree to major modifications to the agreement, according to a report March 11, 2018. According to the report, USA President Trump told PM Netanyahu during their meeting last week that the changes the Europeans had proposed to the 2015 agreement were "cosmetic" in nature and not substantive, and were therefore unacceptable. Trump has signaled that he will withdraw from the Iran nuclear deal if substantive changes are not made to the agreement. The deal has been criticized for failing to address Iran's ballistic weapons program and for including 'sunset clauses' under which many of the restrictions on Iran's nuclear program would expire, and for failing to create an adequate inspection regime to assess Iran's compliance with the agreement.

NETANYAHU WARNS OF REGIONAL NUCLEAR ARMS RACE AS SAUDI ARABIA PUSHES FOR ARMS RACE:

Israeli PM Netanyahu warned of a Middle East nuclear arms race unless the atomic accord with Iran is fixed or scrapped. His comments came amid reports that Washington is considering allowing Saudi Arabia to enrich uranium as part of a deal that would see American companies build nuclear reactors in the kingdom. Netanyahu reportedly pressed USA President Trump on the issue during their meeting last week at the White House, however, the American leader commented that if the USA did not supply the technology, the Russians or Chinese would. Riyadh plans to construct up to 18 such facilities over the next two decades at a cost of more than \$80 billion, with the House of Saud having previously made clear that it plans to match the atomic capabilities of arch-foe Tehran. Riyadh is purportedly demanding that it be granted the right to enrich uranium as a precondition to awarding any related contracts, especially in light of the fact that restrictions on Iran's nuclear activities will become increasingly lenient over time in accordance with the Joint Comprehensive Plan Of Action signed with world powers. President Trump in January de-certified Iranian compliance with the 2015 pact for a second time and announced that he would re-impose sanctions on the Islamic Republic unless the agreement's "disastrous flaws" are fixed. These include, in his estimation, the deal's "sunset clauses" that remove limitations on Tehran's ability to enrich uranium in just over a decade, and as well as the failure to address both Iran's "nefarious" regional ambitions and perceived flouting of a UN Security Council resolution related to its ballistic missile program.

RAMBAM, STANFORD TO COOPERATE ON FUTURE OF MEDICINE:

Rambam Health Care Campus in Haifa and Stanford Medicine signed a cooperation agreement to work together on the future of medicine. The institutions announced last week that they will cooperate in areas including medical innovation; research in collaboration with Big Data and Machine Learning; cutting-edge drug development; and trauma and emergency preparedness. The announcement came in California during the Stanford Medicine-Rambam Symposium on Planning for the Next Generation, an event where the two institutions explored ways to share resources and collaborate. "During the conference we discussed precise, personalized health issues and the issue of health in Israel, including the complex relations in Israel between its local diverse population and with its neighbors," said Prof. Rafi Beyar, director of Rambam.
