

The Terrorists Organizations, Hamas and Fatah have still not removed their call for the genocide of the Jewish People. Their ideological commitment is to destroy the State of Israel through a long-term 'so-called' holy war (Jihad).

HAMAS LEADER THANKS IRAN FOR LONG-RANGE ROCKETS, THREATENS TEL AVIV:

Hamas leader Yahya Sinwar has thanked Iran for providing his terror group the rockets it used to strike deep into Israel and warned the Jewish state that Tel Aviv would be struck again in response to any offensive against the Gaza Strip. "Iran provided us with rockets, and we surprised the world when our resistance targeted Beersheba," Sinwar said in a live TV address. "Had it not been for Iran, the resistance in Palestine would not have possessed its current capabilities," Sinwar said. Israel Fire and Rescue Services reported that an incendiary balloon launched from Gaza sparked a fire in an open field near the border with the coastal enclave. This was the 45th such fire in May 2019, which has seen a ceasefire of rockets since 6 May 2019, but a near-daily onslaught of incendiary objects flown from the Strip toward Israel, burning dozens of acres of land.

EVERY JEWISH INSTITUTION IN GERMANY NEEDS POLICE PROTECTION MERKEL SAYS: German Chancellor Angela Merkel this week expressed concerns over the country's rise in anti-Semitism, saying there is no Jewish institution in the country that does not need police protection. "Unfortunately there is to this day not a single synagogue, not a single day care center for Jewish children, not a single school for Jewish children that does not need to be guarded by German policemen," said Merkel. "Unfortunately, there has always been a certain number of anti-Semites among us, Merkel added. The interview comes after Germany's anti-Semitism commissioner Felix Klein warned last weekend that Jews refrain from wearing skullcaps in public. "My opinion on the matter has changed following the ongoing brutalization in German society," Felix Klein told Funk media group newspapers. "I can no longer recommend Jews wear a kippa at every time and place in Germany," he said.

ISRAEL'S WATERGEN PROVIDES 120 ORPHANS IN UZBEKISTAN WITH FRESH WATER: Watergen, an Israel-based innovative company that creates clean water out of air, is now providing a source of fresh water for over 120 children living in an orphanage in Uzbekistan's city of Bukhara. The technology comes in the form of an atmospheric water generator known as the GEN-350, which can produce up to 900 liters of water per day. A popular tourist destination but also associated with arid weather conditions, Bukhara has recently been experiencing serious water shortages. With a weight of just 800 kilograms, the GEN-350 is transportable and can be installed easily. Each unit contains an internal water treatment system and needs no infrastructure other than a source of electricity in order to operate. The GEN-350 was installed at the orphanage as part of a test pilot in order to demonstrate the generator's unique capabilities to produce hundreds of liters of clean, safe drinking water in Bukhara's arid environment. Watergen's president, Dr. Michael Mirilashvili, said: "Uzbekistan's water utility company was thrilled with our water from air solution and requested to run pilots in several other regions of Uzbekistan. Although there is only 20% humidity in the air of Bukhara, the GEN-350 was still able to generate hundreds of liters of high-quality drinking water." Dr. Mirilashvili is also the visionary behind Watergen's goal to provide clean, safe drinking water to every human being across the globe. Watergen's efforts to make fresh, pure water available around the world earned the company its place on the World Economic Forum's list of the world's top technology pioneers in 2018.
