"Israel, Palestine and the Middle East"

You must hear these end-time prophecies and current events, concerning the Palestinian issue and the Land of Israel.

"Israel, the Church and End-Time Prophecy"

Gain insight into God's plan for Israel and the Church, while learning about your Jewish roots and heritage. This is a significant prophetic teaching on God's plan for Israel, how it is being fulfilled today, and the implications for believers.

"Messiah and the Passover Seder" (Presentation)

This teaching demonstrates a beautiful picture of how the pieces of God's salvation plan fit together, and how the elements used in the Passover Seder point toward the Messiah. The presentation culminates in an explanation of how the Lord's Supper was a Passover celebration.

"Gentiles Commission to the Jews"

Yachad Ministries has a crucial end-time Message to share with both Jews and Gentiles... and the enemy wants to destroy it!

"It pleased them indeed, and they are their debtors. For if the Gentiles have been partakers of their (the Jewish peoples) spiritual things, their duty is also to minister to them in material things."

Romans 15:27

Israel and the Month of AV

As we enter the month of Av (*Sundown July 18, 2023*), it's hard not to think about all the terrible things that have happened to the Jewish people throughout the years during the Jewish month of Av, especially on the 9th day of Av (*Tisha B'Av*) (*Sundown July 26, 2023*). Here are a few, the day that Noah's flood started, both the First and Second Temples were destroyed, the First in 586 BCE, and the Second in 70 CE. According to the Rabbis, this is also the day that the 12 spies came back with the bad report (*Num. 13:32*), causing the Israelites to wander in the wilderness for 40 years. On Tisha B'Av in 1290, the edict banishing the Jews from England was signed, in which no Jew could remain after All Saints' Day (October 31st). On Tisha B'Av in 1492, all the remaining Jews were expelled from Spain. On July 31st, 1941, the Nazi Reinhard Heydrich signed the orders for the Final Solution (the plan to exterminate all the Jews). His orders went into effect the following night, on Tisha B'Av, and much, much more).

Again this year, we find ourselves fighting a war on all sides, with the Hezbollah, a Moslem terrorist group located in Lebanon on the north, and Hamas, the Palestinian terrorists in the west bank and Gaza on the south. They have already sent thousands of rockets into Israel this year. Then you also have Anti-Semitism on the rise.

This survey shows why Israel has good reason to be on high alert. From the Palestinian Center for Policy and Survey Research released a new survey that painted a grim picture of a Palestinian public overwhelmingly supportive of violence towards Israel, with two-thirds believing that Israel will not celebrate its hundredth anniversary.

The Palestinian people believe most positive development was the establishment of the PLO. The Palestine Liberation Organization, with the expressed goal of using violence as the only acceptable manner of establishing a Palestine state in place of Israel. In describing the standing of the State of Israel today, 35% believe Israel is a weak and fragmented state on the verge of collapse, with a majority expect security conditions in the West Bank to continue to escalate, leading to the eruption of a third armed intifada.

But there has never been peace in the Land of Israel since the Jews moved in. Why did God give them Israel, this land of milk and honey if there is never going to be peace? Is it because they've never inhabited all the land that God gave them? After all, He gave them all the land from the river in Egypt (the Nile) to the great river Euphrates (*Gen.15:18*), which is a huge portion of land as compared to the state of Israel today. God told the children of Israel that the land would be an everlasting possession (*Gen.17:8*) given only to them, and that they had to take possession of this land one victory at a time, until they acquired everything that God promised. Even during the reign of King David and King Solomon, Israel never came close to obtaining all that God wanted for them.

(Gen. 12.3) "I will bless them that bless thee..."

The Terrorists Organizations, Hamas and Fatah have still not removed their call for the genocide of the Jewish People. Their ideological commitment is to destroy the State of Israel through a long-term 'so-called' holy war (Jihad).

Israeli Updates *One in Four Europeans Harbor Anti-Semitic Attitudes, New ADL Survey Shows;*

A new survey found that roughly one out of every four residents of the European countries polled for the 2023 survey harbored anti-Semitic attitudes. In Eastern Europe, there were significant drops in the anti-Semitism index scores in Ukraine (46% to 29%), Poland (48% to 35%), Hungary (42% to 37%) and Russia (31% to 26%). However, overall anti-Semitic attitudes remain higher in Eastern Europe compared to Western Europe, exceeding one in three respondents in Hungary and Poland. The new survey found that some of the most stubborn anti-Jewish tropes remain deeply entrenched in 10 European countries. The survey also found that one out of three respondents in six Western European countries believe that Jews are more loyal to Israel than to their home countries. In Spain, one in four people are likely to believe classic anti-Semitic stereotypes – particularly hateful beliefs about Jews and money and Jews controlling the government. Consistent with previous surveys, among the six countries polled in Western Europe, Spain remains the country with the highest level of anti-Semitic attitudes, with 26 percent of the population harboring extensive anti-Semitic beliefs, followed by Belgium (24 percent), France (17 percent), Germany (12 percent) and the United Kingdom (10 percent). The Netherlands registered the lowest score of the 10 countries polled for the anti-Semitism index, with just 6 percent of those polled holding anti-Semitic views.

Iran Makes Moves with IAEA, Ballistic Missiles – What Are They up to? – Analysis; Iran started to claim that it has closed two IAEA probes into either undeclared sites or unexplained traces of molecules of uranium enriched to the 84% level, leaving only two outstanding probes. The claims come only days after the Islamic Republic last week said it had tested a ballistic missile with a range of 2,000 kilometers and only days before the IAEA Board of Governors is set to meet next week. What is Tehran’s game at this time? Is it trying to convince the IAEA Board not to refer its nuclear violations to the UN Security Council for a potential global snapback of sanctions? The latest ballistic missile test reminds Western Europe that the Islamic Republic could increase its range to a point where it could threaten Western Europe, even if Tehran does not cross the nuclear threshold. Independent experts suggest the missile could reach greater distances of up to 3,000 kilometers if armed with a lighter warhead. Regarding the IAEA probes, it is unclear if anything at all happened Tuesday. The IAEA issued no public statement, only Iran issued one. Further, Israeli media requested clarification from the IAEA, and at press time the international inspectors had issued no response which would back up Iran’s claims. IAEA Director-General Rafael Grossi has said repeatedly from 2020-2022 that, "Iran has not provided explanations that are technically credible in relation to the agency’s findings at three undeclared locations in Iran."
