ADAR I - ADAR II 5784

"Israel, Palestine and the Middle East"

You must hear these end-time prophecies and current events, concerning the Palestinian issue and the Land of Israel.

"Israel, the Church and End-Time Prophecy"

Gain insight into God's plan for Israel and the Church, while learning about your Jewish roots and heritage. This is a significant prophetic teaching on God's plan for Israel, how it is being fulfilled today, and the implications for believers.

"Messiah and the Passover Seder" (Presentation)

This teaching demonstrates a beautiful picture of how the pieces of God's salvation plan fit together, and how the elements used in the Passover Seder point toward the Messiah. The presentation culminates in an explanation of how the Lord's Supper was a Passover celebration.

"Gentiles Commission to the Jews"

Yachad Ministries has a crucial end-time Message to share with both Jews and Gentiles... and the enemy wants to destroy it!

"It pleased them indeed, and they are their debtors. For if the Gentiles have been partakers of their (the Jewish peoples) spiritual things, their duty is also to minister to them in material things."

Romans 15:27

The Israel - Hamas War

The war between a democratic nation fighting for its existence against an Islamist movement whose goal is the destruction of Israel and the Jewish people. With the overwhelming majority of Israelis, including most, of those who oppose Prime Minister Netanyahu, see it very differently.

Unlike the United States after 9/11, the wars wasn't here in America, they were in Iraq and Afghanistan. Israelis understand that their enemies are not in far-off lands, and their violence directly threatens them. Even though Israel has prospered over the last 75 years since the Jews regained sovereignty in their ancient homeland, it hasn't known a day of complete peace. Palestinian Arabs, their foreign allies and backers in the Muslim and Arab world, as well international community, have never given up their quest to destroy the one Jewish state on the planet.

The horrors of Oct. 7 were not a one time act of despicable and pointless anti-Western terrorism like the Sept. 11 attacks was. Israel has suffered many terrorist attacks in which large numbers of civilians were killed by Islamist murderers, but Oct. 7 was the worst of them all. Despite the barbarism shown by the Palestinians involved, what made it resonate throughout Israeli society was the

certain knowledge that it was intended as a trailer for what Hamas and the majority of the Palestinian population that supported and still supports those actions intends to do to the rest of Israel. Israel understand that if Hamas is allowed to fully escape the consequences of the war it started, it will only mean that it will be allowed to make good on its promise to repeat the Oct. 7 again and again.

They know that rewarding Hamas and its supporters with such a gesture isn't just an invitation of more bloodshed. It also will ensure that the conflict never ends. In 2005 Israelis sacrificed, giving away land which constitutes a quarter of the state of Israel in the name of peace with false promises and resolutions written up by the UN to protect them. The independent Palestinian state (*in all but name*) ruled by Hamas in Gaza, Oct. 7 was evidence of what a "two state solution" would mean for Israel. They understand that a state in Gaza, as well as one in Judea and Samaria, controlled by genocidal terrorists and their political rivals, the Palestinian Authority (P.A.) and the Fatah Party could place the entire country in danger.

With the Arab countries distancing themselves from the Palestinian Arabs, and considering them as troublemakers and liars, the Palestinians have thus turned to the West like Paris, London, Norway, Belgium, Scotland and the United States for money. The money collects on behalf of the Palestinian Authority goes towards Ramallah's "pay for slay" policy, under which it gives monthly salaries averaging about \$3,300, to terrorists and their families. The organization's decision also confirmed that the "Martyrs' Fund" is enshrined in P.A. law, granting convicted terrorists or their families a "right" to receive payment from Ramallah.

Since Hamas's Oct. 7 massacre, the P.A. has added thousands of Palestinians to its list of people who qualify to receive terror stipends. P.A. officials announced that 3,550 terrorists imprisoned in Israel will receive payouts, as will the families of over 20,000 slain "martyrs." Of the 3,550 terrorists slated to receive payouts, 661 are Hamas terrorists from Gaza. The nearly 67% rise in the number of prisoners will initially cost the P.A. an additional \$1,331,000 per month, adding \$16 million to last year's expenditure of \$161 million on terror salaries.

The Terrorists Organizations, Hamas and Fatah have still not removed their call for the genocide of the Jewish People. Their ideological commitment is to destroy the State of Israel through a long-term 'so-called' holy war (Jihad).

Israeli Updates → **Israeli Defense Minister: 'Dozens' of UNRWA Staff Took Part in Hamas' October 7 Massacre;**

Israeli Minister of Defense Yoav Gallant says Israel has new evidence that dozens of individuals employed by the UNRWA were directly involved in the atrocities carried out against Israeli civilians on October 7, American media have learned. In a briefing last week, Gallant said that the country knew that “dozens” of UNRWA staff were involved in the Hamas-led massacre. While he declined to give a specific figure, Gallant said it was a far greater number than the 12 employees already acknowledged and dismissed last month – by the organization. Calling UNRWA “Hamas with a facelift,” the defense chief, who is a member of Israel’s war cabinet and considered the highest-ranking official after Prime Minister Benjamin Netanyahu, said that it was time for the world to “dismantle UNRWA” and create an alternative mechanism for providing aid to civilians in the war-stricken Gaza Strip. “I think the world needs to wake up and address this issue in a different way, while also addressing Gaza’s needs,” Gallant told the American news outlet. “UNRWA is a group of terrorists who receive salaries from many countries – these countries gave money to people who raped, murdered, and took people into captivity,” he added. Since the first allegations, at least 19 donor countries, including the US, froze their funding to the organization. On Tuesday, the House Foreign Affairs Committee voted 30-19 to advance a bill to permanently cut all US aid to UNRWA in response to the allegations.

Ahead of Rafah Operation: Egypt's Warning to Hamas; Egypt has delivered a message to Hamas warning that it has only two weeks to reach a prisoner exchange agreement. According to American media, should the organization fail to reach an agreement, Israel will begin a large-scale ground offensive into the Rafah region in southern Gaza. According to the report, Egypt is exceptionally worried about the possibility that tens of thousands of Gazans will attempt to cross the Egyptian border when the operation begins. In light of this, Egypt has established multiple fortifications on its northern border and clarified to Israeli officials that any operation in Rafah must be limited in its scope, as further escalation is likely to endanger the agreements between Israel and Egypt. Earlier, Hamas warned that an Israeli offensive into the city would mean the collapse of any negotiations for a prisoner exchange agreement. Prime Minister Benjamin Netanyahu said that Israel was formulating a “detailed plan” to evacuate civilians from Rafah in southern Gaza even as a victory against the Hamas terrorist organization in the city is “within reach” in an interview with American media. Four Hamas battalions are currently holed up in Rafah, along with hundreds of thousands of Gazans who fled the fighting in other parts of the coastal enclave.
