"SIGNS IN THE HEAVENS AND SIGNS IN THE EARTH"

"Israel, Palestine and the Middle East"

You must hear these end-time prophecies and current events, concerning the Palestinian issue and the Land of Israel.

"Israel, the Church and End-Time Prophecy"

Gain insight into God's plan for Israel and the Church, while learning about your Jewish roots and heritage. This is a significant prophetic teaching on God's plan for Israel, how it is being fulfilled today, and the implications for believers.

"Messiah and the Passover Seder" (Presentation)

This teaching demonstrates a beautiful picture of how the pieces of God's salvation plan fit together, and how the elements used in the Passover Seder point toward the Messiah. The presentation culminates in an explanation of how the Lord's Supper was a Passover celebration.

"Gentiles Commission to the Jews"

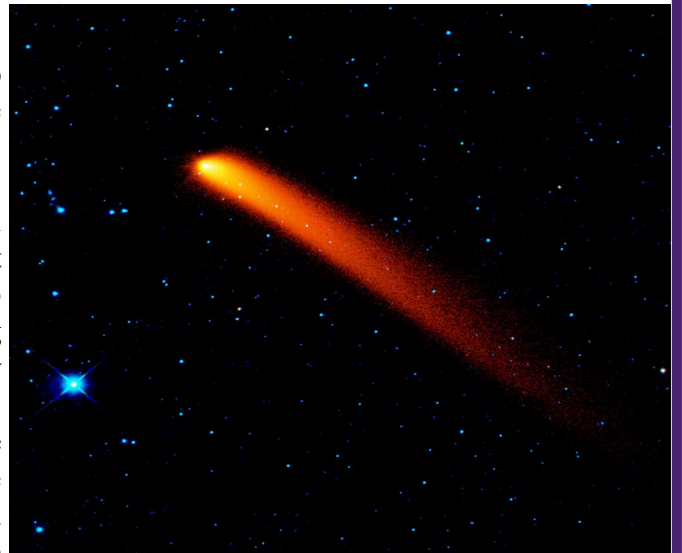

Yachad Ministries has a crucial end-time Message to share with both Jews and Gentiles... and the enemy wants to destroy it!

"It pleased them indeed, and they are their debtors. For if the Gentiles have been partakers of their (the Jewish peoples) spiritual things, their duty is also to minister to them in material things."

Romans 15:27

A recent meteor strike in Iran has many people wondering about the prophetic Scriptures that tells us, such things will befall earth, in the end of days. The meteor struck Avaj, a province of Qazvin on July 31st. The Hand of God may very well be behind the meteor hitting Iran. As we know, Iran vows to "wipe Israel off the map" every chance they get. Because they are so dead-set on accomplishing this horrific endeavor, Divine Judgement may pay them one or more visits. Iran could be the one who is "wiped off the map." It will be destroyed if they attempt to nuke Israel. So, this large comet could be a warning from God: "Leave My People Alone!" He will not allow anyone to destroy Israel. He wouldn't bring millions of His People, home, again, just to have them nuked. Plus, the Bible does not talk about another Diaspora.

There are many strange events going on around the world. Two weeks ago, an earthquake occurred in the Dead Sea. Thankfully, there were no reports of injuries or damage in Israel or neighboring Jordan. The point is earthquakes are linked to judgement and can be something you never forget. They, certainly remind us of our own mortality. This particular earthquake happened in the area where the walls came down in Jericho, and also, it was in the area where

Sodom and Gomorra were located. I don't believe this was a coincidence. A large earthquake in this area happened in 1837. Up to 5,000 people were killed. Could the pressure of the plates be building up, again? Time will tell.

"The earth trembled and quaked, and the foundations of the mountains shook; They trembled because He was angry."(Psalm 18:7).

The Middle East has been hit with a terrible heat wave. It is being caused by a heat dome. Temperatures are climbing to 120 degrees in the hottest parts of the day in Israel. Crops are being destroyed by the heat and animals are dying, as well. But, as bad as it is in Israel, it is much worse in Iran. In the same week, they threatened to annihilate Israel, their temperatures went up to a mind boggling 164 degrees Fahrenheit Unbelievable! Maybe, just maybe, they shouldn't threaten to destroy Israel like they do. It is obvious God doesn't like that.

In America, we are having many signs, as well, extreme weather, tornadoes, out of control fires, earthquakes, hurricanes, deadly floods and mudslides. Signs are meant to show or reveal something important to people. Often, when they fail to get the message, the screws are tightened, so to speak. These signs are going on all around the world. Without a doubt, God is trying to get our attention. What will it take?

The Terrorists Organizations, Hamas and Fatah have still not removed their call for the genocide of the Jewish People. Their ideological commitment is to destroy the State of Israel through a long-term 'so-called' holy war (Jihad).

Israeli Updates

IRAN DECLARES: EVEN IF CONGRESS DEFEATS DEAL, WE WON: The USA Congress is currently engaged in a 60-day review period of the Iran nuclear deal after which it will vote on whether or not to approve the agreement. Ali Akbar Salehi, head of the Atomic Energy Organization of Iran (AEOI), told a gathering in Tehran this week that Iran has won, even if Congress rejects the deal and blocks USA President Barack Obama's veto. Explaining his declaration of victory, the nuclear chief said that even if Congress prevents the deal, the USA "will face problems in maintaining its political credibility and improving its economic conditions." Ironically the agreement isn't just facing opposition in Congress - Iranian hard-liners have been holding rallies calling on their parliament to reject the deal as well. That protest comes despite the fact that the deal lifts hundreds of billions of dollars in sanctions relief for the leading state sponsor of terror, removes weapons and missile sanctions on Iran, allows it to keep its entire nuclear program and continue developing it with foreign aid, and have the program defended from nuclear sabotage courtesy of the West. The deal likewise has Iran inspect its own covert nuclear sites where nuclear detonator testing has occurred, and gives Iran 24-days notice before any inspections occur. Since the deal has been reached, Iran has announced construction on two new nuclear sites, and shown an increasingly aggressive military stance particularly vis-a-vis its ballistic missile program

EXTREME HEAT WAVE HITS ISRAEL FOR SECOND TIME THIS MONTH: For this second time this month, Israelis experienced the sizzling temperatures of an extreme summer heat wave on Sunday, 16 August, 2015. While mercury levels did not quite climb to 49°C (120°F) as they did earlier in the month, several places around the country achieved location specific all-time highs, according to Israel Meteorological Service data. Sunday was the peak of the heat wave and is expected to last the next few days, though with slightly cooler temperatures, said IMS Climate Department sources. The highest temperatures on Sunday occurred in the Jordan Valley and the Arava region, at 43-46°C (109-115°F).

ISRAEL FOILED 17 SUICIDE ATTACKS SO FAR THIS YEAR: Israeli security forces have prevented 17 suicide attacks in the first seven months of this year, the Israel Security Agency reported. This figure does not include attacks prevented by the Palestinian Authority, which has dismantled several cells that planned such attacks. Israel has also prevented eight kidnappings.
